Lydia

PLACE

*every family
deserves a home*

STABILITY INTO HEALING

Our Mission:

To disrupt the cycle of homelessness and nurture healing and belonging for current and future generations.

Our Vision:

A compassionate community where everyone has a home and the opportunity to thrive.

Our Values

Community

We believe strong healthy communities are the foundation to a better world.

Equity

We believe it is our responsibility to actively challenge systems of oppression. We recognize a majority of those experiencing homelessness have been marginalized.

Upstream Impact

We believe that the best way to eliminate homelessness is to look beyond short-term solutions and focus on breaking the generational cycle of poverty.

Employee Wellness

We value each other as humans first. We know that the best outcomes for our clients and our community are achieved when our team is healthy and thriving.

Be on the lookout for our 2026 Impact Report coming early next year to our website! We'll be diving into our Housing, Mental Health, Parent Support Program, and the progress we've made with our strategic plan.

Lydia Place turned safety into stability, and stability into healing

Dear Neighbor,

When I look back at where my family stood just a short time ago, I see shadows – confusion, pain and a constant state of survival. Life was complicated and heavy in ways that I could hardly explain. The turning point came when Lydia Place opened its doors without hesitation, meeting us with cultural respect and an understanding of what it means to simply be seen.

For the first time in years, I was given space to breathe and the tools to build barriers that protect our family's peace. Instead of being trapped in survival mode, we were invited to a new way of scheduling life through the reassurance of housing support and case management. Because of Lydia Place, I was able to reshape my life and my children's future – one built with dignity, safety and authentic stability.

I will never forget the small practical moments that became life changing. My caseworker showed up, let me lead the conversation while I also took notes to create traction on a common and frustrating housing barrier. That focus, that intentional investment of time, created a profound shift in my mental health. It reminds me that healing is not only possible but within reach when the right support is present.

My children have flourished in this safety. Over the past year, I have watched each of them discover confidence and make goals to reach. They have witnessed their mother be treated with respect and compassion, and that has restored something deep within our family values. The cycle of dysregulation was broken, replaced with rhythms of growth, rest and forward motion.

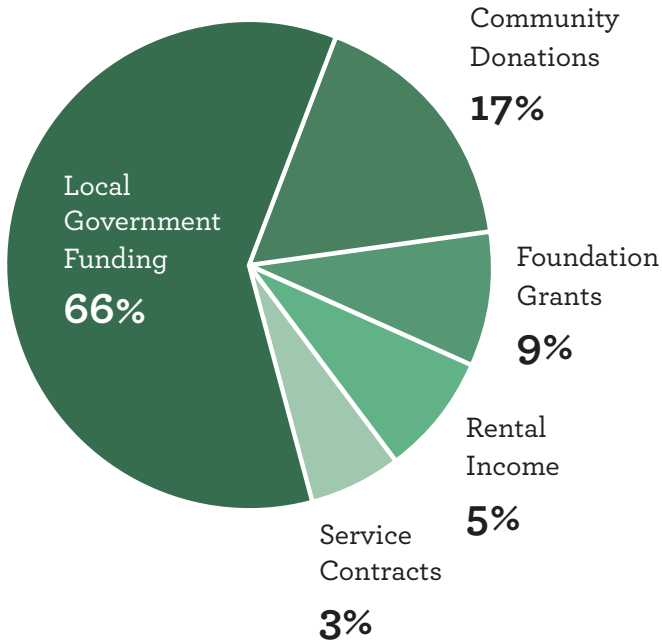

Lydia Place did more than provide housing assistance – they offered a foundation for renewal. They met us in our most fragile moments and helped me renew my voice for strength. Today, I carry an established sense of healing and purpose. I stand for my future, not only as someone who has survived but as someone who is truly thriving, preparing to build a future marked by hope rather than hardship. This journey reflects stability due to reclaiming identity, dignity and discovering the joy of possibility. The blessing of Lydia Place is that they nurture wholeness. My family is living proof. Thank you for supporting Lydia Place and making healing possible for families like mine.

- Sincerely, Ramona, a Lydia Place Client
